Technical Skills

Overview

Programming

Education

B.Tech, Computer Engineering
(GPA: 8.68/10)
J.C. Bose University of Science and Technology, YMCA
2020 – 2024 | Faridabad, Haryana

High School, CBSE Board (96.30%)
Supreme Sr. Sec. School
2020 | Jind, Haryana

Tools

Git, GitHub, VS Code, Jira, Postman, NPM, Figma, Chrome DevTools

Summary

A highly motivated Software Engineer skilled in full-stack development using React.js, Node.js, Express.js, and SQL. Experienced in building scalable web applications, improving backend performance, designing efficient UI/UX workflows, and integrating secure APIs. Strong foundation in data structures, problem-solving, and Agile development practices with proven ability to deliver clean and maintainable code.

Experience

- Oct 2024 – Present

Associate Software Engineer

Accenture Solutions Pvt. Ltd.

 - Contributed to Aloha POS, a large-scale restaurant management and billing platform.
 - Enhanced order processing, inventory, and automated billing modules.
 - Optimized backend logic and APIs to improve system performance and reliability.
 - Delivered features consistently within Agile workflows.
 - Tech Stack:** React.js, Node.js, Express.js, SQL, REST APIs, Git, Jira.
- Jan 2024 – Oct 2024

MERN Stack Developer Intern

Eweblink Technologies LLP

 - Built full-stack features with focus on scalability, security, and clean architecture.
 - Implemented JWT auth, API modules, and integrated multiple payment gateways.
 - Developed reusable UI components and optimized backend performance.
 - Collaborated across Agile sprints covering development and deployment tasks.

Projects

- FTTunes.com**
 - Developed a full-stack music distribution platform enabling artists and labels to upload, manage, and distribute tracks seamlessly.
 - Built role-based dashboards, JWT authentication, email verification, and subscription workflows improving platform security and usability.
 - Implemented cron-powered automated notifications and optimized backend controller logic, reducing response latency.
 - Tech Stack:** React.js, Node.js, Express.js, SQL, Redux, JWT.
- FlyAbasin.com**
 - Created a full-featured travel booking platform supporting real-time flight search, comparison, and secure bookings.
 - Integrated multiple external flight APIs and implemented reliable payment flow with proper validation and error handling.
 - Designed a responsive and intuitive UI, significantly enhancing user experience and accessibility across devices.
 - Tech Stack:** React.js, Bootstrap, REST APIs.

Certifications

- Introduction to Front End Development (Intermediate) – SimpliLearn
- Getting Started with NodeJS (Advanced) – SkillUp
- MERN Full Stack Development – Eweblink Technologies
